Master Lock® Door Hardware

Contents

Evolution Through Innovation

Innovative Security Hardware for Home, Office and Business.

Throughout our history, Master Lock® has worked hard to earn and maintain the trust of our customers by delivering on our promise of strength and quality and by continually seeking new standards for product design, application, and performance.

From the groundbreaking laminated padlock design that launched the Master Lock Company in 1921 to the thousands of products that followed, spanning a wide range of security hardware categories, one thing has remained constant. Every Master Lock product is the end result of hard work by a dedicated team, driven by a passion for innovation and a steadfast commitment to quality. As a result, our customers know what they can expect when they purchase any product that bears the Master Lock name.

Master Lock's innovative Residential, Commercial, and Multi-Family Door Hardware continues this tradition.

Evolution Through Innovation

The only deadbolt to lock out intruders even if they have a copy of the key.

Two-thirds of U.S. homeowners have unknowingly exposed themselves to the risk of an intruder entering their home with a copy of their key. Every time a homeowner lends out a key to a contractor or babysitter, or uses valet parking at a restaurant or hotel, or if they or a family member loses a key, there is a chance that their key could be duplicated and circulated to people they don't know without their knowledge.

NightWatch® deadbolts were specifically created by Master Lock Company to prevent an intruder from entering, even if they have a copy of the homeowner's key. It installs and functions like a standard deadbolt but once the exclusive NightWatch® feature is activated, all keys are blocked from unlocking the deadbolt.

When the NightWatch® feature is engaged, the lock cannot be opened from the outside, even with a duplicate key.

Available in 3 Easy-to-Install Designs:

Programmable Electronic Keypad Deadbolt

- Keyless convenience with backup keyed access.
- Easy to program – stores up to 20 unique user codes.
- 2 factory pre-set codes.
- Programmer code protects against unauthorized programming.
- Replaces any standard deadbolt without additional door prep.

Dial Combination Deadbolt

- Operates like any dial combination lock.
- Open with combination or key.
- Provides combination back up for those who prefer keyed access for daily use.

Standard Keyed Deadbolt

- Installs and operates like a standard deadbolt.

See product listings on pages 16 to 20.

For more information, see the Programmable Electronic Keypad Deadbolt and NightWatch® videos at www.masterdoorlock.com.

MASTER LOCK VAULT®

Safe and Secure Password Protection

Master Lock Vault® provides a safe, free and convenient place to store confidential data for quick, easy access whenever needed. Its secure 256-bit encryption is a perfect way to safely store user and administrator codes for Master Lock® Electronic Keypad Deadbolts or user combinations for Master Lock® Dial Combination NightWatch® Deadbolts.

Mobile Version

24/7 immediate access. Safely and easily add, change, or delete your Vault info from your smart phone.

Our **FREE** App is available for iPhone®, iPad®, and Android®.

Evolution Through Innovation

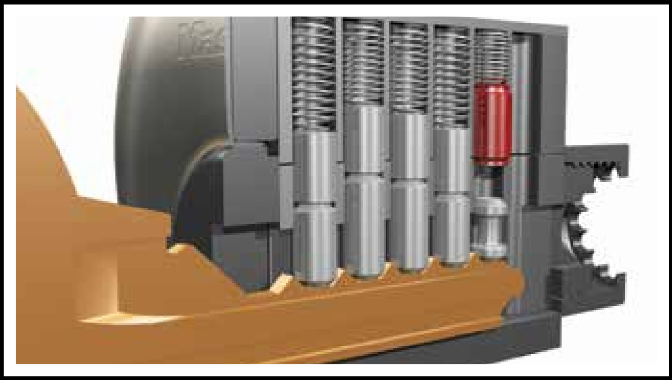

Advanced Cylinder Technology

Once a closely guarded trade secret, lock bumping has recently emerged as a serious threat to personal and property security.

- Lock bumping is so easy a child can quickly learn to do it.
- Bump keys are readily available for purchase on the Internet.
- Bump keys are easy to make.
- Bumping leaves no visible signs of forced entry – insurance companies are wary about paying claims.
- Featured in Grade 2 residential and commercial deadbolts.

As the leader in security hardware, Master Lock has stepped forward to create a revolutionary new lock cylinder that is highly resistant to lock bumping, is capable of detecting bump attacks, and meets the highest test standard for resistance to bumping as defined by ASTM F883-09.

Unlike standard pin tumbler cylinders, BumpStop® employs an innovative, patented pin design which has been specially engineered to resist impact from a bump key and bump tool.

For more information, see the BumpStop® video at www.masterdoorlock.com

24 IN 1

RETROFITABLE CYLINDER

Commercial Grade 2 Door Hardware

Master Lock Company's Grade 2 Commercial Door Hardware featuring the exclusive 24-in-1 Retrofitable Cylinder provides an efficient, cost effective way to service customer demand for up to 24 of the most popular installed key systems in use today.

For more information, see page 22.

Multi-Family Recodable Locks

A unique patented cylinder enables multi-family property security managers to rekey locks using a simple change tool in as little as 15 seconds.

- Re-key locks when needed, as often as needed.
- Allows security managers to take control of the process of changing keying with every change in occupancy.
- Saves time and money.

For more information, see page 26 and the Recodable video at www.masterdoorlock.com.

Residential Door Hardware

Master Lock Residential door hardware offers today's most popular styles in today's most popular finishes to compliment any style home.

These locks provide a quality, cost effective choice for a variety of door hardware needs.

With NightWatch® deadbolts on their doors, homeowners enjoy the peace of mind that comes from knowing that unaccounted for keys are rendered harmless.

- When the NightWatch® feature is engaged, the lock cannot be opened from the outside, even with a duplicate key.
- Can only be engaged or disengaged from inside the home.
- Fits all doors – replaces all brands.

To Operate the NightWatch® Feature

Turn lever to lock deadbolt

Press up on safety button while pulling lever to engage NightWatch® lockout feature

Features

- Fits any door and replaces any brand.
- Universal 6-way latch adjusts from 2-3/8" to 2-3/4" and has interchangeable latch faces to ensure a perfect fit on any door.
- NightWatch® Deadbolt technology provides enhanced security for greater piece of mind.

Styles

- Tulip Knob
- Ball Knob
- Biscuit Knob
- Wave Lever
- Straight Lever
- Single Cylinder Deadbolt
- Double Cylinder Deadbolt
- NightWatch® Deadbolt
- Programmable Electronic Keypad Deadbolt

Finishes

- Polished Brass
- Antique Brass
- Satin Nickel
- Aged Bronze

Refer to the charts on pages 11-19 for function/style/finish availability.

Selection Guide

1. Handle Style

BALL KNOB (BA)

BISCUIT KNOB (BC)

TULIP KNOB (TU)

STRAIGHT LEVER (SL)

WAVE LEVER (WL)

2. Finish

POLISHED BRASS (03)

ANTIQUE BRASS (05)

SATIN NICKEL (15)

AGED BRONZE (12)

3. Function

KEYED ENTRY (01)

For exterior locking applications - entry door

PRIVACY (03)

For interior locking applications - bedroom or bathroom

PASSAGE (04)

For interior non-locking applications - hall closet

DUMMY (05)

For non-functional interior applications

STOREROOM (02)

For locked interior storage room applications

4. Customization

KEYED DIFFERENT (KD)

Each lock is opened by its own unique key. Keyed Different is the standard keying default option.

KEYED ALIKE (KA)

All locks in the set are opened by the same key. Keyed Alike locks eliminate the need for multiple keys where numerous locks are used.

MASTER KEYED (MK)

In a Master Keyed System, a master key opens all the locks in the system, although each lock has its own unique key. Master Keyed Systems allow supervisory or emergency access.

NIGHTWATCH® (N)

When engaged, the lock cannot be opened from the outside; even with a duplicate key.

Commercial Grade 2 Door Hardware

RETROFITABLE CYLINDER

Master Lock® Grade 2 Commercial Door Hardware provides a cost-effective, dependable replacement for 24 brands of commercial door hardware.

All knobs, deadbolts, and levers feature BumpStop™ to resist bump attacks and exceed the ASTM F883-09 test standards for bump resistance. All are available in 24 keyways to support existing keying systems.

Features

- 6-pin Schlage® C compatible cylinder is standard
- Levers meet ADA Standards
- Meets ANSI/BHMA A156.2, Series 4000 standards for entry sets
- Meets ANSI/BHMA A156.5 standards for deadbolts.
- UL listed: Meets 3 hour fire rating.
- Cylindrical lock housing
- Latch bolt – stainless steel
- Deadbolt – brass with hardened steel roll pin
- Featuring BumpStop® Advanced Cylinder Technology to resist against bumping attacks

BUMP STOP® Advanced Cylinder Technology

Heavy Duty Series with These Added Features

Lever

- Clutch feature to resist pry attacks
- Removable thru-bolts
- Large diameter trim ring

Deadbolt

- Heavy die-cast anti-pry collar
- Heavy duty tie screws
- Adjustable deadbolt latch. 2-3/8" –2-3/4"

Clutch feature resists pry attacks.

Styles

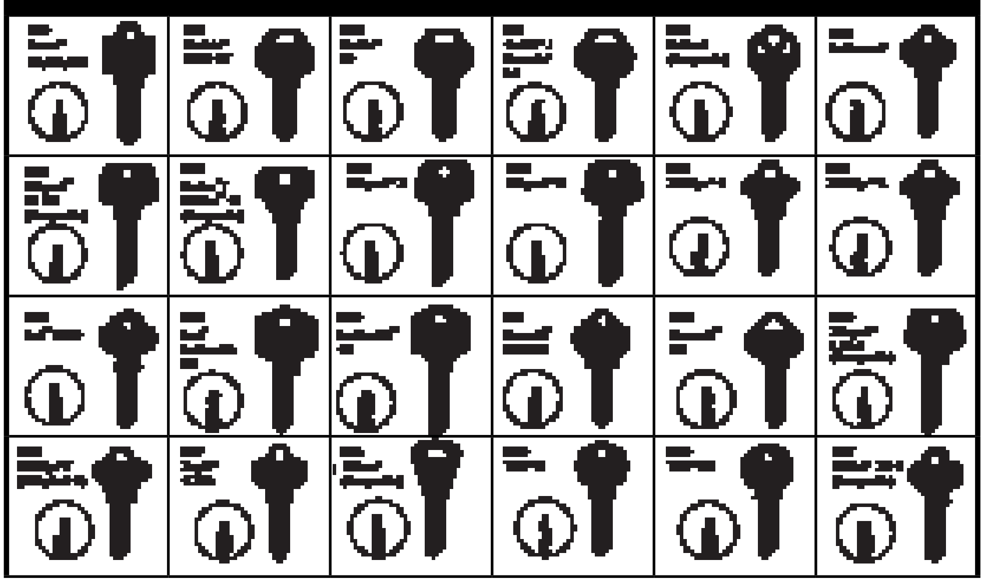

- Standard Duty Ball Knob
- Standard Duty Lever
- Heavy Duty Lever
- Single Cylinder Deadbolt
- Double Cylinder Deadbolt
- Heavy Duty Deadbolt

Finish

Recodable Multi-Family Door Hardware

Master Lock® Recodable Door Hardware allows property owners and managers to take control of the process of changing locks with every change in occupancy. With the simple change tool that is provided with each lock they can instantly rekey door locks whenever needed and as often as needed.

Quick – Literally takes just seconds to recode a Master Lock recodable lock

Easy – Takes just four easy steps

Cost Effective – Eliminates cost of lock replacement or rekeying

Easily re-key locks in seconds with the provided re-keying tool.

Select Master Lock padlocks can be re-keyed to match Master Lock Grade 3 Residential and Recodable door locks and other locks with KW1 cylinder.

Features

- Fits any door
- An anti-pry collar on exterior functions increases resistance to prying
- Longer tie-screws – fits doors up to 2" thick
- Dual springs for durability
- Powder coat finish provided extended protection
- Cycle tested to 400,000 cycles
- Featuring BumpStop® Advanced Cylinder Technology to resist against bumping attacks

BUMP STOP® **Advanced Cylinder Technology**

Insert key turn 90 degrees clockwise to locked position. Do not remove key from keyway

With key still in keyway, insert Change Tool into notch above the keyway.

Without removing the Change Tool, remove old key. With Change Tool still in place, insert new key.

Remove Change Tool – your lock is now rekeyed to the new key.

Styles

- Tulip Knob
- Modified Ball Knob
- Single Cylinder Deadbolt
- Double Cylinder Deadbolt

Finishes

- Polished Brass
- Satin Nickel

Refer to the chart on page 28 for function/style/finish availability.
